An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Barry Friedman on 3/14/05.

The application has been amended as follows:

In the specification, page 5, lines 1-4, change "FIG. 8 represents user interfaces that are connected to the central network-operating center in FIG. 7 via the Internet; and FIG. 9 represents reports generated from the integration of the output from the exercise unit in FIG. 1 and the user input from FIG. 8." to --FIG. 8 represents user input; FIG. 9 represents user interfaces that are connected to the central network-operating center in FIG. 7 via the Internet; FIG. 10 represents reports generated from the integration of the output from the exercise unit in FIG. 1 and the user input from FIG. 8.--.

The following is an examiner's statement of reasons for allowance: Clem discloses an interactive programmable user fitness apparatus.

Stark et al disclose a system for medical protocol management.

Cohen et al disclose a reliability system for networked exercise equipment.

The prior art however, fails to show or suggest as detailed in claim 1, an exercise unit adapted for electronic communication of user status, unit status, and unit operational information; a central information processing system in electronic communication with said exercise unit, said communication being secure from
